“Report Sharp-Shooter remedies all our reporting headaches”, says Matthias Hess, Senior Analyst, CM Informatik AG

Overview

We help government and private companies to solve everyday problems to effectively organize administrative and business processes.

CM Informatik AG is the leading publisher for Records Management/Case Management solutions for Cantons (Government) in Switzerland.

The company was founded in 1988 and specializes in software development and service, pre- und after-sales, marketing/sales, secretariat and management.

CM Informatik AG has an extensive experience in business management, reporting and long-term archiving for the public administration and private business. The company offers a comprehensive every day work flow solution which is used by thousands of users in Switzerland and Germany.

Challenge

Our deep understanding of needs and requirements of Records Management / Case Management solutions for Cantons is realized in our products.

We have three core products CMISTAR, CMIKONSUL and CMIAXIOMA. CMISTAR is a visible and practice-oriented total concept for long-term archiving, which is suitable both for large and small archives. CMIKONSUL and CMIAXIOMA are records management solutions with a comprehensive business control for the more complex employment at larger cities, cantons and organizations.

Our Application is offering a very high degree of flexibility, performance and reliability. Report Sharp-Shooter was clearly the product of choice for us, because

- It offers clean binding to Business objects
- It is very easy to use. Many Users can easily build their own reports, or just change them if they need to.
- It offers a wide range of export formats.
- It offers a very powerful Scripting Environment. We can provide a solution to our customer even for the most demanding Reporting problem without changing our application.

Results:

With Report Sharp-Shooter, we can keep the complexity of Reporting out of our way. Report Sharp-Shooter handles it all very nicely.

We can focus on the “core features” of our application, and our customers can do most of the customization themselves. This makes us happy, because we save time and money. It makes our customers happy, because they also save time and money.

Report Sharp-Shooter remedies all our reporting headaches. If we have any questions, Perpetuum Software support can help very quickly, and they do! We really can recommend Report Sharp-Shooter.
